

Erasmus+

Granada, Spain

Exploring Malaga

We started our day by visiting the stunning Málaga Cathedral, an architectural masterpiece that blends Renaissance and Baroque styles. Walking through its grand interior and admiring the details was a great way to begin our sightseeing.

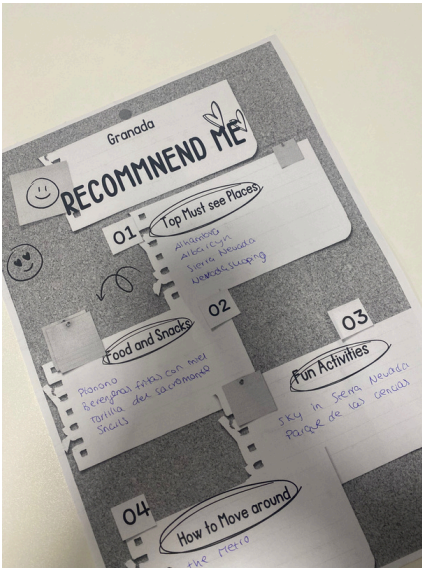

Next, we made our way to La Malagueta Beach, where we took a moment to relax by the sea. The sound of the waves and the refreshing breeze were the perfect way to recharge before our final stop in Málaga—Alcazaba.

First day in Granada

Our first day in Granada was packed with exciting activities. We started the morning by visiting IES Ángel Ganivet, a middle school in Granada, where we took part in our first ice-breaking activity. It was a great experience getting to know the Spanish students, learning about their culture, and sharing our own experiences.

Later in the afternoon, at 4 PM, we had a scheduled treasure hunt in Granada's city center.

This was an amazing way to explore the city, as we followed clues and discovered hidden gems around Granada. After completing the treasure hunt, we had some well-deserved free time to relax.

We participated in an ice-breaking activity at IES Ángel Ganivet, where we got to know more about the Spanish students. It was a great way to connect, share experiences, and learn about each other's cultures.

At the Dornajo Visitor Center in Sierra Nevada, we explored the region's history, culture, and famous destinations.

Our teachers gave a presentation about Croatia, sharing details about our culture, language, and traditions with the Spanish students.

We played educational games like Jeopardy with Spanish students.

Activities

Visit to the Albayzin

On day 4 we headed out for a guided tour of Aljibe del Rey, Albayzín, and Sacromonte. During the tour, we learned a lot about Spanish history, dating back centuries, while also getting to enjoy live music and flamenco performances.

After the tour, we had some free time in Albayzín, where we had the chance to explore the area on our own and take in the beautiful surroundings. We also got to spend time hanging out with the Spanish students.

free time

On the second day of our Erasmus+ experience in Granada, we had plenty of free time to explore the city. We visited cafes, tried local tapas, and wandered through charming streets, soaking in the lively atmosphere. Afterward, we did some shopping, picking up souvenirs ending the day enjoying the city's unique atmosphere.

Visit to Alhambra and the Generalife

Alhambra was truly mesmerizing, filled with lush nature and an incredibly calming energy. We explored the entire complex, including the stunning Generalife Gardens, with a guided tour that provided us with deep insight into its rich history and intricate architecture.

One of the highlights of our visit was Charles V's Palace, located within the Alhambra. Inside, we discovered a small museum featuring historical paintings, sculptures, vases, plates, and various tools from different periods.

Farewell activities

The last day of our Erasmus+ experience finally arrived. We woke up early to prepare for an all-day trip back home. By 9 AM, we were already at school, starting our farewell activities. The morning began with voting for the best Erasmus+ logo representing Spain (Granada) and Croatia (Daruvar). Then, they announced the winners of the Granada city treasure hunt from Day 2, which brought back fun memories from earlier in the week. After that we headed to the school library for a special performance where two students prepared a flamenco show.

As we boarded the plane, we reflected on the amazing experiences, friendships, and memories we made during our time in Granada.
